

**Copy the exact flow and content from our existing site without removing anything newly added as for now.**

**Everything from sale to deed logo to be given on the header with proper animation. The logo cannot be changed at all it has to look the same as it is.**

**A ai generated video mentioning the services in the moving line needs to be created for the header.**

**When anything is tapped it has to redirect properly as on our existing site showing the same content in a better way.**

**You may add animation or book opening graphic whatever after our approval.**

All deeds drafting

Save tax

All authorities etc are all tappable on our existing site.

Please check Everything how the whole functionality is our existing site.

Check from top to bottom

On home page

And every inner page

Give some pop up prompts on the website.like

1. buy sell rent with minimum commission
2. reach for everything from sale to deed in a seamless process.

You have to think about that.

Everything from sale to deed will not come only in the header and logo

This power line needs to be displayed in animation

In every service we offer.

Delhi property document section

The animation is not looking good the font of the moving document is too large

Instead of scrolling left right

We can scroll top and down

By adding from template or think of anything else which we can insert there.

In all the documents the learn more tab needs to redirect to whatsapp in a single go with a customized message for the service mentioned.

No blog section given.Uave already shared blogs titles and also informed that these are human and ai mixed and may get checked.You said that we will make it in our own language.Still pending.

I asked for a exclusive section for  
Selling

You can add a page

And a section in homepage  
With a heading

Tell To Sell

Bo partner with us given on home page

Some creativity some difference has to be shown otherwise mentioning services can never make a developer stand out

**As serviced belongs to the service provider**

**Creativity**

**Designing**

**Placement**

**Saying the same thing in a different language**

**Making site look different like**

**Make ppl think ohh I haven't seen this before**

**Is rhe actual task of a well versed developer.**
